

The 9th Hong Kong Budding Scientists Award

The competition was jointly held by the Education Bureau and the Hong Kong Association of Science and Mathematics Education. The objective of this award is to develop gifted students' scientific abilities, and provide trainings for students to upgrade their problem-solving, collaboration, critical thinking, creativity and communication skills. In this school year, our school sent five students to join this Award. Three of them had excellent performance and won the following prizes in this Award.

Awardees	Prizes
3B Ma King In, Marco	First Class Honour (Science Knowledge Quiz)
4D Wong Chi Ho	First Class Honour (Science Knowledge Quiz)
4D Wong Hin	Third Class Honour (Science Knowledge Quiz)
