

Form Five Citizenship and Social Development Study Tour: Exploring Xin Hui's Historical Development and Ecosystem

To enhance the learning experiences of our students, the Other Learning Experience Committee of our school organised a Form Five Citizenship and Social Development study tour to Xin Hui. This study tour focused on exploring Xin Hui's historical development and ecosystem. From 27th to 29th March 2024, our students had the privilege of immersing themselves in the rich cultural heritage and natural wonders of Xin Hui.

The primary objective of this study tour was to provide students with a first-hand experience of Xin Hui's historical development and ecosystem. By observing and engaging with their surroundings, students had the opportunity to deepen their understanding of the latest developments in our country, fostering a greater appreciation for our motherland. Additionally, this study tour has played a crucial role in strengthening their national identity and fostering a sense of pride and belonging.
