

Build a Smart City Competition 2025

5C Chen Wendy, 5D Kwan Ching Yau, Yam Hiu Hong, and Lu Hua Ping have won Second Runner-Up in the Build a Smart City Competition 2025, organized by the Faculty of Construction and Environment at Hong Kong Polytechnic University.

The project, titled "Spatial Data Challenge in Smart City", focused on mapping out elderly services in Hong Kong using Geographic Information Systems (GIS). Awardees not only demonstrate innovative thinking but also reflect the deep empathy and commitment to community that embody the spirit of HCYers.

Congratulations!
