School-Company-Parent Programme organized by YDC

The School-Company-Parent (SCP) programme, formerly named as School-Company Partnership, was created by the Young Entrepreneurs Development Council in 2003. It is a joint effort by three parties, i.e. the business sectors, secondary schools and parents. The programme aims to foster the "Entrepreneurial Spirit" in young people and help secondary students connect to the commercial world to acquire an entrepreneurial mindset prior to entering the workforce. Through this programme, parents can also understand their children better and therefore enhance their relationship.

This year, 34 of our F.4 students, partnered with City University of Hong Kong MBA Alumni Association Limited, took part in this programme. Parents of these students were highly encouraged to take part at the same time. The participants from our school are as follows:
