

2020-21 Other Learning Experiences (2nd Term)

This year the school has set up a student-led volunteer team, aiming to promote students' initiative in designing their own charity work and serving the community.

The team has successfully organized an activity called Workshop on Designing Paper Fan (紙扇設計工作坊) in an activity room of the Hong Kong Federation of Youth Groups' Tsuen Wan centre on 20th May. The workshop showed children the history, types, and usage of paper fans. Through the activity, the participants could learn more about Chinese history and culture. They could also have a sense of Chinese artwork. The activity allowed the participants to exercise their creativity to design their own product. They could communicate and share ideas with other participants. This gave them fun and a special learning experience.

On Life-wide Learning Day, the committee held a STEM activity called The Clown Overturning the Laboratory. There was a vivid performance by the clowns and students were invited to do some tricks. The activity was held successfully and ended in claps and laughter from students.

On 8th July, the committee organized a talk on tourism for students. The talk was held by a travel agent which gave information on the industry and jobs available in the field. This is useful to students for their career plan.

COVID-19 does not cease our care for the community. The students were invited to pack 200 gifts which were then sent to the Rotary Club of Hong Kong Northwest Neighbourhood in April 2021. We hope that the elderly could feel our sincerity through this little act.

To broaden students' horizon, develop their multiple intelligence and equip them with positive values and attitudes, the school provides students with a wide range of other learning experiences. This allows students to develop themselves outside classroom. During March to June, the school held the following activities for students:

| Activity | |
|-----------------|--|
| 1 | Putonghua Public Speaking Competition for Primary and Secondary Schools 2021 |
| 2 | A Raffle Ticket Sale by Rehabilitation Power 2021 |
| 3 | The Youth Volunteers Training Programme 2021 |
| 4 | A Charity Sale of Origami Flowers |
