

Our school was awarded the title of 'Caring School' in Hong Kong Volunteer Award 2022

It is our pleasure to have been awarded the title of 'Caring School' in Hong Kong Volunteer Award 2022, which was co-organised by the Home and Youth Affairs Bureau and Agency for Volunteer Service.

Our school always concerns the community. Members from Other Learning Experience committees strive to provide volunteer service to the needy. Being severely affected by the pandemic last year, many elderly people in the district suffer. In light of this, our school prepared anti-COVID care packs which were delivered to the Hong Kong Society for the Aged. Meanwhile, our school cares about the need of children. The student-LED committee organized 'Folding Fan Design Workshop', from which participants acquired knowledge of Chinese traditional culture, appreciated the beauty of it, and learnt communication skills. Apart from these, different committees of our school held activities like selling paper flowers and decluttering to raise donations for the Community Chest of Hong Kong.

We are delighted to be awarded the certificate of 'Caring School' in Hong Kong Volunteer Award 2022. In the future, we will continue to contribute to the community by providing optimal volunteer service to the elderly and other groups in need.
