

# 2020-21 Learning Support

## Catering for Learner Diversity

To cater for learner diversity and consolidate students' learning, enrichment and enhancement classes have been conducted online in the afternoon starting from 19<sup>th</sup> April 2021. The school allocates the vacancies according to students' first term examination results. Enhancement classes are free of charge and include Chinese Language, English Language and Mathematics.

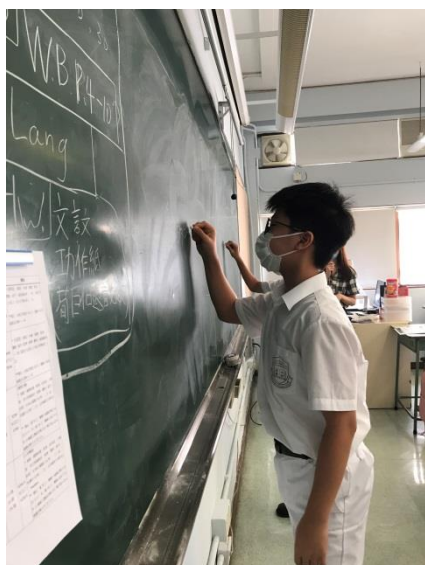

## Borrowing and Utilising iPads

To facilitate the implementation of the e-learning policy and enhance learning efficiency of students, the school has applied for the Community Care Fund to purchase iPads for underprivileged students. The iPads have been distributed to students in March 2021. Meanwhile, the school lends iPads to students in need but do not benefit from the Fund so as to provide diverse learning experiences to learners. Each department panel has also incorporated e-learning elements while designing curriculum.

## Learning Support for Students: Learning Skill Workshops for F.1 and F.2 Students

The school has arranged learning skill workshops for F.1 and F.2 students in order to nurture students as lifelong learners by consolidating their learning skills and developing their critical thinking ability. The workshop details are as follows:

Target audience	Dates	Names of workshops
F.1 students	25 <sup>th</sup> September 2020 and 9 <sup>th</sup> October 2020	Learning Skill Workshop
F.2 students	9 <sup>th</sup> October 2020 and 16 <sup>th</sup> October 2020	Critical Thinking Workshop

## Enrichment and Enhancement Classes

The school offers enrichment and enhancement classes every Monday and Thursday to consolidate students' learning and provide extra support to them. The classes are free of charge and teachers will nominate participants. Due to the epidemic, most classes are conducted online. Details are as follows:

Form	Subjects of enrichment classes	Subjects of enhancement classes
Junior form	Chinese Language, English Language, Mathematics	Chinese Language, English Language, Mathematics
Senior form	Chinese Language, Mathematics, Liberal Studies, Economics, Geography	English Language, Mathematics, Liberal Studies
