

HCY A.C.E. (Adventure·Collaboration·Education) Programme: Sichuan Study Trip

Our school's Other Learning Experiences Committee organised the "HCY A.C.E. (Adventure·Collaboration·Education) Programme: Sichuan Study Trip" from April 12 to 17, 2025. Principal Lau Sui Yee and teachers led 27 students to Sichuan for a study trip aimed at enhancing their learning experiences. The programme allowed students to understand the rich history, cultural heritage, and natural ecology of Sichuan, reflect on the importance of conservation, and connect with the country through service learning, making the experience particularly meaningful.

During the trip, students visited various Sichuan attractions, such as Du Fu Cottage, Wuhou Shrine, Jiuzhaigou Valley, Dujiangyan Scenic Area, Chengdu Research Base of Giant Panda Breeding, and the Sanxingdui Museum. Additionally, students interacted with local children by visiting a community centre, which enhanced their empathy.
