

Lantern riddles for Mid-Autumn Festival

To celebrate the heritage of traditional Chinese culture and to create a festive atmosphere, the National Education and Chinese Culture Promotion Team is pleased to host an intellectually stimulating lantern riddle guessing activity during the Mid-Autumn Festival. All students are cordially invited to participate.

The activity features a meticulously designed series of riddles that are diverse in content, educational, and highly entertaining. They are crafted not only to challenge the intellect but also to inspire creativity. Beneath the lanterns, students can be seen pausing in deep thought or gathering in groups for lively discussions, inspiring one another and sharing the joy and satisfaction of breakthroughs. This is not just a mental workout but also an excellent platform for students to step outside the classroom and foster interactions with their peers.

Lantern riddle guessing is more than just a festive tradition; it allows students to unwind and relieve stress in a relaxed and joyful setting. We hope that through this activity, students will deepen their understanding of and emotional connection to our traditional festivals, creating warm and wonderful school memories amidst shared laughter and joy.
