

Award from “Impact Booster 2025”

3C Au Sheung Hei Angus, Lui Yat Hei Hay, Ma Cho Long Axcl, Wong Chun Yuen Roy, and 4C Cai Tsz Yui Dominic, along with 4D Kan Wai Cho Carson, Lau Lap Kan Kenneth, Shi Chun Wang Kyle, and Weng Chak Lam Michael, participated in “Impact Booster 2025: Innovative Plans to Care for Community Elderly.” They demonstrated outstanding effort and active engagement, leading our school to be honored with the “Active Participating School Award.”

Our student team, “**荃心荃意**,” has been successfully selected for the “Impact Booster 2025” Case Competition, jointly organized by the Hong Kong Social Enterprise Summit and Chinachem Group. Their innovative proposal, themed “Silver Economy,” stood out among numerous submissions and advanced to the case selection stage, showcasing their passion and potential in social innovation.

The competition aims to nurture students in addressing real social challenges through design thinking workshops, field research, and mentorship. Our students participated in a series of activities, including design thinking workshops, site visits in the Tsuen Wan District, a tour of the Chinachem Group, and the selection showcase. These experiences deepened their understanding of social issues and encouraged them to transform creative ideas into feasible solutions.
