

## Koon Man Space “Art Workshop”

On 26 March 2026, Secondary 4 and 5 Visual Arts elective students participated in an art workshop organised by Koon Man Space. During the session, they learned how to use wintergreen oil transfer techniques to create unique tote bags. Through this workshop, students deepened their understanding of Chuen Lung Village in Tsuen Wan, gaining insights into the local community's history, culture, and outdoor wildlife ecology.
